

# WHAT TO PACK FOR YOUR GREECE VACATION?

## 1. Copy of Important Documents

Having photocopies of your important documents can save you a headache in the event your important travel documents are lost. Save digitally or keep separately from the original.

## 2. Sunglasses

The higher you go, the more intense U.V (ultraviolet) light will be on your eyes and this is where sunglasses with UV filters come in very handy.

## 3. Sunscreen

It is a must when trekking at such altitude as the sun can be harsher on your skin.

## 4. Hat

Bring a hat if you're travelling to Greece during the warmer months because they offer great sun protection. An island-appropriate wide-brimmed straw hat offers plenty of sun protection at the beach and pool.

## 5. Scarf

On chilly summer nights or in places with excessive air conditioning, a thin scarf will keep you warm. When visiting monasteries or churches where women are expected to cover up, a scarf might be very helpful.

## 6. Shoes

Comfortable walking shoes are must for sightseeing. Depending on the season you might want to bring either casual sandals or comfortable flats.

## 7. Flip-flops

Bring a pair of flip flops to wear at the beach if you are travelling to Greece in the summer. Havaianas flip flops are excellent since they have excellent traction and don't slide when walking on wet surfaces.

## 8. Clothes

Bring casual dresses; a basic black dress can be worn from day to night. Pack at least 1 long sleeve sweater or hoodie for chilly summer nights and air-conditioned places.

## 9. Travel towel

The smaller microfiber Travel Towel is easy to pack, though, and dry out quickly so you can wash and reuse them throughout your stay. Packable towels are a must if your itinerary includes the islands or mainland beaches.

## 10. First aid kit

A first aid kit can help stop an injury from growing worse and potentially avoid any trips to the hospital or walk-in clinic. (Band aids, pain reliever, allergy medicine, anti-nausea medicine, antacid tablets, charcoal tablets, and qtips)

## 11. Insect repellent

There are a lot of mosquitoes in Greece, but serious mosquito-borne illness is rare in Greece. You can take some insect repellent for your comfort.

## 12. Power bank

Power banks are a must when hiking and often the bigger, the better in terms of storage.

### 13. Power Plug

Travel plug adapter, there are three associated plug types, types C, D and M.
